# DISCOVER THE TAILORED SOLUTIONS WE HAVE TO OFFER YOU.

At Werres, we understand that every business has unique requirements. That's why we have accumulated decades of expertise in creating custom vertical industry solutions. Our team of experts will collaborate with you to design a robust material handling system that aligns with your business objectives. Trust us to deliver the perfect solution that meets your needs and drives your success.

## AUTOMATED STORAGE & RETRIEVAL SYSTEMS (AS/RS)

By leveraging automated storage and retrieval systems (AS/RS), you can revolutionize your inventory management. With AS/RS, you'll have access to accurate, real-time data on your inventory, eliminating the need for time-consuming physical inspections. This means you can effortlessly have direct access to your items at any given moment. Experience the power of AS/RS and elevate your inventory management to new heights of efficiency and effectiveness.

## CONVEYOR & SORTATION

Werres experts specialize in automating processes across various industrial markets. Leveraging state-of-the-art conveyor system technologies and advanced design tools, we possess the knowledge and resources to identify and implement the optimal solutions that align with your specific goals. Partner with us to achieve unparalleled efficiency and productivity in your operations.

## ROBOTICS

Unleash the power of cutting-edge technologies with our industrial robotic solutions. Designed to address complex operations, eliminate bottlenecks, and seamlessly adapt to industry market growth, product changes, and other challenges, our flexible and high-performance approach revolutionizes your workflow. Discover the future of automation and unlock unparalleled efficiency with our advanced robotics solution.

## GOODS TO PICKER (GTP)

A game-changer in the face of increased product flow and customer demands, GTP can boost productivity and customer satisfaction while eliminating costly errors and delays. Manual processes often struggle to keep up, but you can with goods to person solutions, ecommerce, retail, and distribution operations can efficiently organize and streamline order fulfillment of products.

# PREMIER AUTOMATION SYSTEM & SOLUTION INTEGRATION

## WAREHOUSE DISTRIBUTION

Achieving successful omnichannel order fulfillment relies on a strategic combination of meticulous planning, cutting-edge software, and state-of-the-art equipment. By gaining clear visibility into your operations, you will possess the critical advantage needed to make swift and informed decisions, ultimately positioning yourself as a formidable contender in this dynamic and rapidly evolving industry.

## MANUFACTURING

Automation plays a crucial role in achieving a lean and competitive manufacturing environment. By leveraging automation, businesses can streamline repetitive or high-risk tasks, while also eliminating waste through optimized procedures, equipment, and overall system implementation. This results in increased efficiency, improved productivity, and significant cost savings. Embracing automation in manufacturing can empower companies to stay ahead in the market, meet customer demands, and drive sustainable growth.

## FOOD & BEVERAGE

Our expertise in food and beverage logistics enables us to address specific requirements in handling, packaging, and distribution. From unique packaging solutions to specialized equipment for bottle handling and cold storage environments, Werres offers comprehensive software and technology solutions. We are dedicated to providing efficient case handling, packing, shipping, and conveying services tailored to meet your specific needs.

## CONVEYOR & SORTATION

Package Conveyor

Pallet Conveyor

Spiral

Flexible & Expandable

Plastic Belt

Narrow Belt Sortation

Activated Roller Belt (ARB) Sortation

Shoe Sorter

Cross Belt Sorter

Pivot Diverter

## WAREHOUSE AUTOMATION

Goods To Picker

AS/RS

Automated Guided Vehicles (AGV)

Autonomous Mobile Robots (AMR)

Robotics

End of Line Robotics

Ergonomic Handling Equipment

## CUSTOM SOLUTIONS

Controls & WCS/WES

Scan Tunnel

Stacking/Destacking

Picking Automation

Carton Erector

Print & Apply

Auto Case Sealer

Lighting

## STATIC STORAGE

Selective Pallet Rack

Pallet Flow/Carton Flow Rack

Drive-In Pallet Rack

Mezzanine

Push Back Rack

Shelving

Cold Storage

Industrial Cabinets
