

DURASOURCE

BLUE LED SPOTLIGHT

AWARENESS BEACON

Looking for a sure way for pedestrians to spot a forklift in motion?

The Blue LED Light from DuraSource projects a bright blue spot beam pattern onto the ground as a forklift moves, providing a visual signal to pedestrians.

The Blue Light is a square shape and features robust solid state LEDs that withstand the shock and vibration associated with forklift movements to emit a highly visible, bright blue oval-shaped light on the floor. At 480nm, the Blue LED Forklift Light is visible in warehouse environments, making it ideal for forklifts, load trucks and other industrial vehicles used in warehouses and distribution centers with pedestrians.

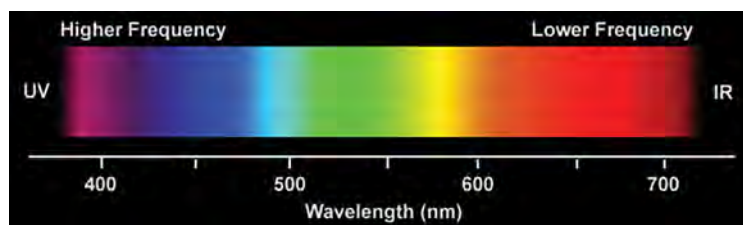

Supplied with a single bolt, U-Bracket mount, the Blue Light's simple mounting makes it suitable for use on many makes and models

The Blue Light from DuraSource is the solution to keep pedestrians aware that a forklift is on the move.

Features & Benefits

- 480nm wavelength of visible light
- 5 meter beam precedes vehicle
- Round, blue beam pattern projected
- Versatile, compact design
- 12 - 48 VDC
- Highly visible blue light in warehouse environments
- Lightweight and mounts easily on the front or back of vehicle

PRODUCT SPECIFICATIONS

BLUE LED SPOTLIGHT

Dimensions and Specifications - Blue Spot Light	
Part Number	939-10986
Description	LED Blue Spot Light
Connector	Tyco
Lumens	150
Operating Voltage	12 - 48 VDC
Operating Current	0.78A @ 12Vdc 0.21A @ 48Vdc
Power Consumption	10W
Temperature Range:	-40°C to 85°C
IP Rating:	IP67
Weight:	0.707 kg
UL	8750
Housing Material	Die Cast Aluminum - Black E-Coat
Lens:	Automotive Optical Grade Hard-Coated Polycarbonate
Beam Pattern	Spot
Polarity	Reverse Voltage Protected
Vibration Resistance:	10-500 Hz @ 5 Grms
Mounting:	U-Bracket, Single drill hole to accommodate for mounting bracket
EMC Rated	EMC EN 13309: 2010
